

Blue Horizons Pool Fusion **Aqua Sachet**

Key Features/Characteristics

- 🔑 Convenient 350g Sachet
- 🔑 Oxidiser/Clarifier
- 🔑 Minimal effect on pH
- 🔑 Part of the **BOAST** System

Recommended for use as a weekly preventative oxidiser, but may also be used to remove excess contamination after heavy pool use or prolonged good weather.

Application Instructions

WARNING: When dosing this product, wear eye and face protection checking wind direction first to ensure granules are not blown back towards you.

Apply the product carefully near to the pool water surface, aiming for even distribution. Add whilst filter pump(s) are turned 'on' to aid distribution, leaving the filter pump running for at least one hour after application.

Dose Rate: One sachet of Blue Horizons Pool Fusion will treat up to 45,450 litres (10,000 gallons) of pool water.

Note: As Aqua Sachets cannot be re-sealed, the whole sachet **must** be used in one treatment.
