

SAFETY DATA SHEET

1. Identification of the substance/preparation and of the company/undertaking

1.1 Product Identifier Metal Klear

1.2 Relevant Identified uses of the substance or mixture and uses advised against

Uses: Clear poolwater discoloured by metals

1.3 Details of the supplier of the safety data sheet

Company: Complete Pool Controls Ltd
Unit 2, The Park
Stoke Orchard
Bishops Cleeve
Gloucestershire
GL52 7RS

Telephone: +44 (0) 8712 229081

+44 (0) 8712 229083

E-mail: sales@cpc-chemicals.co.uk

1.4 Emergency Telephone

Tel: +44 (0) 8712 229081 (office hours)

+44 (0) 1242 300271 (outside of office hours)

2. Hazard Identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Hazard Class	Hazard Statements
Acute Tox. 4 *	H302
Eye Dam 1	H318

For the full text of the H statements mentioned in this section see Section 16.

Most important adverse effects

Human Health:

Physical & Chemical Hazards:

Potential environmental effects:

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008

Hazard symbols:

Signal word: Warning

Hazard statements:	H302	Harmful if swallowed.
	H318	Causes serious eye irritation.

Precautionary statements:	P101	If medical advice is needed, have product container or label at hand.
	P102	Keep out of reach of children.
	P280	Wear protective gloves/protective clothing/eye protection/face protection.
	P262	Do not get in eyes, on skin, or on clothing.
	P301+P310+P331	IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
	P303+P361+P353	IF ON SKIN: Remove / Take off immediately all contaminated clothing. Rinse skin with water/shower
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing	
	P312.	Call a POISON CENTER or doctor/physician if you feel unwell.
P301+P330+P331	IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician	

(continued on Page 2)

2. Hazard Identification...cont

Precautionary statements:

P405 Store locked up.
P501 Dispose of contents/container in accordance with regulations.

2.3 Other Hazards No information available

3. Composition/information on ingredients

3.1 Mixture

Chemical Name	CAS-No.	Amount %	CLP Classification
Tetrasodium Ethylenediamine Tetraacetate	64-02-08	11.4%	H302 / H318

All other components are either non-hazardous or below the minimum quantities.

4. First Aid measures

4.1 Description of first aid measures

General Advice: Take off all contaminated clothing immediately. Symptoms of poisoning may occur after several hours. Medical observation for at least 48 hours after the accident is recommended.

If inhaled: If symptoms develop, immediately move individual away from exposure and into fresh air. Seek immediate medical attention; keep person warm and quiet. If person is not breathing, begin artificial respiration. If breathing is difficult, administer oxygen

In case of skin contact: Immediately flush skin with water for at least 15 minutes while removing contaminated clothing and shoes. Seek immediate medical attention. Wash clothing before reuse and discard contaminated shoes.

In case of eye contact: Wash immediately and continuously with flowing water for at least 15 minutes. Remove contact lenses after the first 5 minutes and continue washing. Obtain prompt medical consultation, preferably from an ophthalmologist.

If swallowed: Seek immediate medical attention. Do not induce vomiting. Vomiting will cause further damage to the mouth and throat. If individual is conscious and alert, immediately rinse mouth with water and give milk or water to drink. If possible, do not leave individual unattended

4.2 Most important symptoms and effects, both acute and delayed

If inhaled: It is possible to breathe this material under certain conditions of handling and use (for example, during heating, spraying, or stirring). Breathing this material may be harmful or fatal. Symptoms may include severe irritation and burns to the nose, throat, and respiratory tract. Symptoms are not expected at air concentrations below the recommended exposure limits

In case of skin contact: Can cause permanent skin damage. Symptoms may include redness, burning, and swelling of skin, burns, and other skin damage. The feeling of irritation or pain may not occur until several hours after the exposure. Additional symptoms of skin contact may include: hair loss Passage of this material into the body through the skin is possible, but it is unlikely that this would result in harmful effects during safe handling and use

Trade Name: Metal Klear

4. First Aid measures

4.2 Most important symptoms and effects, both acute and delayed

In case of eye contact: Can cause permanent eye injury. Symptoms include stinging, tearing, redness, and swelling of eyes. Can injure the cornea and cause blindness.

If swallowed: Swallowing this material may be harmful or fatal. Symptoms may include severe stomach and intestinal irritation (nausea, vomiting, diarrhea), abdominal pain, and vomiting of blood. Swallowing this material may cause burns and destroy tissue in the mouth, throat, and digestive tract. Low blood pressure and shock may occur as a result of severe tissue injury.

4.3 Indication of immediate medical attention and special treatment needed Treat Symptomatically

5. Fire fighting measures

5.1 Extinguishing media:

Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

5.2 Special hazards arising from the substance or mixture

Under certain fire conditions, traces of other toxic gases cannot be excluded.
May form: carbon oxides, nitrogen oxides, toxic fumes

5.3 Advice for fire-fighters

Special protective equipment: Fire-fighters should wear full protective clothing and self-contained breathing apparatus (SCBA). Thoroughly decontaminate fire-fighting equipment including all fire fighting wearing apparel after the incident.

Further Information: Collect contaminated fire extinguishing water separately.

6. Accidental release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Keep people at a distance and stay on the windward side. Do not breathe vapours. Put on breathing apparatus. Ensure adequate ventilation. Avoid contact with eyes.

6.2 Environmental precautions

Do not flush into surface water or sanitary sewer system.
Inform respective authorities in case product reaches water or sewage system.

6.3 Methods and materials for containment and cleaning up

Persons not wearing protective equipment should be excluded from area of spill until clean-up has been completed. Stop spill at source, dike area of spill to prevent spreading, pump liquid to salvage tank. Remaining liquid may be taken up on sand, clay, earth, floor absorbent, or other absorbent material and shoveled into containers. Scoop and sweep up all spilled product and other contaminated materials and place in marked disposal containers. If possible, clean up spill area on a dry basis and then flush with plenty of water. Absorb liquid on vermiculite, floor absorbent or other absorbent materia

6.4 Reference to other sections

See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment.
See Section 13 for information on disposal

Trade Name: Metal Klear

7. Handling and storage

7.1 Precautions for safe handling

Hygiene measures:

Keep away from food, drink and animal feeding stuffs. Smoking, eating and drinking should be prohibited in the application area. Wash hands before breaks and at the end of the work day. Take off all contaminated clothing immediately.

7.2 Conditions for safe storage, including any incompatibilities.

Requirements for storage areas : Storage temperature: 0 to 120 deg F (-17.7C to 48.9C).

Advice on protection against fire: No special requirements

Further information on storage

Product solutions are corrosive to many commonly used materials of construction such as steel, galvanized iron, aluminum, tin and zinc. These solutions can be stored and handled in baked phenolic-lined steel, polyethylene, stainless steel, or reinforced epoxyplastic equipment.

Advice on common storage: Do not store together with acids

7.3 Specific end uses

No information is available.

8. Exposure control/personal protection

8.1 Control parameters None assigned

8.2 Exposure controls

Engineering measures Ensure adequate ventilation of the working area.

General protective and hygienic measures Keep away from foodstuffs, beverages and food. Instantly remove any contaminated garments. Wash hands during breaks and at the end of the work. Use skin protection cream for preventive skin protection. Do not eat, drink or smoke while working.

Personal protective equipment

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Hand protection Wear protective gloves. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and standard EN 374.

Eye protection Wear safety glasses approved to standard EN 166. Provide eye station

Skin and body protection Wear clean, long sleeved, body-covering clothing

Environmental exposure controls

General advice: General room ventilation plus local exhaust should be used to maintain exposure below TLV. Eyewash and emergency shower facilities recommended. Remove and wash contaminated clothing before reuse.

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Form: Liquid
Colour: Rose to lavender
Odour: None

pH @ 20°C: 10.5
Melting point: Not available
Boiling point: 219.00 °F / 219 °F @ 760.00 mmHg
Vapour pressure: 17.50 mmHg @ 68.00 °F / 20.00 °C
Vapour density: 0.6 (AIR=1)
Density @ 20°C: 1.05 g/mL

Water solubility: Not available

NOTE: These physical data are typical values based on material tested but may vary from sample to sample. Values should not be construed as a guaranteed analysis of any specific lot or as specifications

Trade Name: Metal Klear

10. Stability and reactivity

10.1 Reactivity

Reactivity No decomposition if used according to specifications.

10.2 Chemical stability

Chemical stability Stable under normal use and conditions

10.3 Possibility of hazardous reactions

Hazardous reactions None known

10.4 Conditions to avoid

Conditions to avoid None known

10.5 Incompatible materials

Materials to avoid: Avoid contact with: reactive metals such as aluminum and magnesium, steel, strong mineral acids, strong oxidizing agents

10.6 Hazardous decomposition products

Haz. decomp. products: May form: carbon oxides, nitrogen oxides (NOx), toxic fumes

11. Toxicological Information

11.1 Information on toxicological effects

Toxicity Values No information available

Primary Irritant effect:

On the skin: Risk of serious damage to skin

On the eyes: Risk of serious damage to eyes

Sensitization: No information available

12. Ecological Information

12.1 Toxicity

Ecotoxicity values: No data available

12.2 Persistence and degradability

Persistence and degradability No data available

12.3 Bioaccumulative potential

Bioaccumulative potential No data available

12.4 Mobility in soil

Mobility Soluble in water

12.5 PBT and PvB assessment

PBT identification: No data available

12.6 Other adverse effects

Other adverse effects: No data available

13. Disposal Considerations

13.1 Waste treatment methods

- Disposal should be in accordance with local, state or national legislation
- Do not reuse empty containers without commercial cleaning or reconditioning
- Do not discharge into drains or the environment, dispose to an authorised waste collection point

Classification

Waste Codes in accordance with the European Waste catalogue (EWC) are origin-defined. Since this product is used in several industries, no Waste Code can be provided by the supplier. The Waste Code should be determined in arrangement with your waste disposal partner or the responsible authority

Trade Name: Metal Klear

14. Transport Information

14.1 UN Number	3267
14.2 UN proper shipping name	Corrosive liquid, basic, organic, n.o.s. (Sodium Hydroxide, Tetrasodium Ethylenediamine Tetraacetate)
14.3 Transport hazard class(es)	Class 8 Classification Code C7 Hazard label 80 Transport Category 3 Tunnel E LQ 5 L
14.4 Packaging Group	III
14.5 Environmental hazards	Clean up even minor leaks or spills if possible without unnecessary risk
14.6 Special precautions for user	No further information available
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	N/a

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for this substance or mixture. Information about limitation of use

This Safety Data Sheet is provided in compliance with REACH Regulation (EC) No 1907/2006

15.2 Chemical Safety Assessment

A chemical safety assessment has not been carried out for the mixture by the supplier

16. Other information

Full text of H-statements referred to under sections 2 and 3

H302 Harmful if swallowed.

H318 Causes serious eye irritation.

Further information

S1/2 Keep locked up and out of reach of children

S8 Keep container dry

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S61 Avoid release to the environment. Refer to special instructions / Safety Data Sheet

Restricted to professional users. Attention - Avoid exposure- obtain special instructions before use
